MIDNIGHT MARAUDERS. At Lehi Junction two nights ago, Mrs. Joseph Sleater, who is an invalid, saw a man getting through the window at midnight. She called to the servant girl, who got up and the fellow ran. A little later in the night a son of Mrs. Delimore came home from the brickyard and went to bed, but left the doo open. A few minutes later a man appeared at the door and quietly opened the same and in a low voice asked: "Is everybody asleep?" The boy said, "No." and the man ran. Soon after this a man entered Mr. Smith's house and broke up a lot of dishes. Next night after this a man appeared at J. Slater's again and, while tramping around the house, was seen, as Mr. Slater was on the waich. He fired two shots, which made the fellow decamp in a hurry. On the third night a man appeared at Mr. Slater's home in the night and, finding the window to Mrs. room open, he got a heavy stick and struck her over the feet and legs while she law in bed and then ran away.
After this a good watch will be kept
for him and, if caught, it will go very
hard with him.

PROF. THOMAS F. ADKIN. "I consider it a crime to experimen ith the health of the people," says Prof ith the health of the people," says Prof homas F. Adkin, President of the Insti ute of Physicians and Surgeons, "If ild not know positively and absolutely hat my new home treatment will curdid not know positively and absolutely that my new home treatment will cure every known disease, even when all other methods of treatment fail. I would consider I was committing a crime to make such a statement to the public. Nothing is so preclous to a man as his healthnothing so horrible as an untimely grave. Little ills, if not not promptly cured, often result in obstinate chronic diseases. I believe that my new discovery, 'Vitaopathy,' is the most marvelous treatment every known, and I intend to give its secrets to the world. I intend that every man, woman and child shall know its teachings. I propose to tell the sick, absolutely free of charge, how they may be restored to perfect health. I would rather be a benefactor to the sick man than to have the wealth of Croesus."

The above are remarkable words, but those who know Prof. Adkin, and have tried his treatment, can vouch for their absolute truthfulness.

"I was nearly dead with liver and kidney trouble," writes Prof. John C. Neison, a well known Geologist and Mining Engineer, living in Dayton, Tenn. "The doctors had given me up to die. You can imagine what a state of mind I was in. I could not attend to business and began to think my days were numbered. I read of the wonderful cures Prof. Adkin had effected by his great discovery, Vitaopathy, and as a forlorn hope wrote, to him just the condition I was in, mentally and physically. He gave me a clear diagnosis of my case and didn't charge me a cent for it. Mrs. A. J. Seifried, Stowe Creek, O., writes this grateful letter: "I was affected with a severe ease of Eczema and Nettle Rash which spread over my whole body. The itching and stinging at times was almost unendurable. I wrote Prof. Atkin, and in four days after I began following the free advice he gave me, the itching began to subside and the eruptions dried up rapidly. In ten days I was permanently cured. I feel better new than I have for the past ten years. The tree advice Prof. Adkin gives is blessing to those who cannot afford to pay big doctors' bills."

Prof. Adkin says: "I sympathize with the sick. I want to make every chronic invalid well. I want to prove what my treatment will do. I want every sick person in this country to write me personally. few constitutions can stand it for any length of time. Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhoea follow its use. Now, the doctors will tell you if you have

Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the guins have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on ad infinitum, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the kin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or nighteen years ago, I contracted Blood Foison in a bad form, and am satisfied that the rapid progress the disease was making would soon have made me a ife-long invalid or ended my life. As my system ame under the influence of S. S. S., the sores, plotches and pimples gradually disappeared and soon to evidence of the disease was left. I am now thirty-time years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it.
